MBAISE PROGRESSIVE UNION

MPU ELECTION 2026

FINAL V20 - ELECTION RULES AND PROCEDURES

Present Only | Acceptance Required | Uniform Application | 17 Office Sections

PRIVATE ELECTION - OFFICIAL PUBLICATION NOTICE
Electoral Committee review/final adoption by Sunday, October 4, 2026; transmitted to the MPU Executive Council on Monday, October 5, 2026 for administrative notice; official member publication Tuesday, October 6, 2026. Procedures adopted under Art. XII Lacuna must in all events be published no later than Sunday, October 25, 2026.
Art. V Sec. 10 - Candidate Presence / Eligibility; Art. V Sec. 4 - One Office and Spouse Restriction; 10 Executive offices + 7 Board positions = 17 office sections.
LGA ballot colors: BLUE = Ahiazu Mbaise | GREEN = Ezinihitte Mbaise | YELLOW = Aboh Mbaise

CONSTITUTIONAL CONTROL AND ELECTION-AUTHORITY NOTICE

The MPU Constitution controls in the event of any conflict. The Electoral Committee sets and publishes election guidelines under Article V, Section 3(d), and those guidelines must remain consistent with Article V, Section 10 and all other controlling constitutional provisions. These Rules regulate election administration only; they do not amend the Constitution or create new constitutional qualifications. A genuine matter not covered by the Constitution shall be handled through Article XII.

1.0 Self-Nomination - 2026 Electoral Committee Administrative Procedure

Article V, Section 10 permits eligible active members to nominate candidates and to be nominated, but it does not expressly address self-nomination or require a seconder. For the 2026 election, the Electoral Committee will accept self-nomination as a uniform administrative procedure, provided the member independently satisfies all constitutional eligibility requirements. This procedure does not create a new constitutional qualification or alter any constitutional eligibility standard.

2.0 Multiple-Office Nominations - 2026 Ballot-Administration Procedure

(a) For 2026 ballot administration, no candidate shall appear on the final ballot for more than one elected office in the same election. Article V, Section 4 expressly prohibits an officer from holding more than one position at a time; it does not separately prescribe how multiple simultaneous candidacies must be administered. The one-candidate/one-office ballot rule is therefore a uniform Electoral Committee procedure designed to prevent a simultaneous-office conflict and to produce an administrable final ballot. It does not add a constitutional eligibility requirement.

(b) Where a member receives multiple nominations, the earliest valid nomination received and timestamped will remain the operative nomination unless the member submits a written change before the published deadline. Subsequent nominations will not be placed on the ballot unless the member timely elects to switch. The system shall automatically reject the later nomination from ballot consideration and record the date and time of the rejection. The automated rule is applied uniformly without discretionary selection by the Electoral Committee.

(c) Affirmative acceptance required - no consent, no ballot. No name shall be placed on the final ballot unless the member has submitted written acceptance for that specific operative office by the acceptance deadline. A nomination without acceptance is treated as an automatic declination. This avoids electing a person who is not interested in serving.

(d) If a member fails to elect one office by the deadline, the first nomination remains operative but still requires acceptance under 2.0(c). If the member accepted the first nomination, the first stands and subsequent nominations are automatically deemed declined, rejected, and recorded. If the member accepted none, all nominations are deemed declined and the member shall not appear on the ballot for any office. This reflects lack of consent, not punishment.

(e) A member may file ONE written switch before the deadline to replace the operative nomination with a later nomination. Upon receipt, the system automatically replaces and records the change. One switch only. After the deadline, the operative nomination is final.

2.0(f) Candidate Presence Required - Constitution Art. V Sec. 10 - Verification Before Voting - Uniform Enforcement

Per Art. V Sec. 10, any member seeking any office must be present at the meeting for the election. The Electoral Committee shall verify candidate presence before voting begins. Verification shall be applied uniformly without discretionary selection.

If an operative candidate who affirmatively accepted under 2.0(c) is not present at the call for election, the candidate's name shall remain printed on the ballot, but votes cast for that candidate shall not be counted for that office. The remaining sixteen office sections on the ballot shall remain valid.

If the absent candidate is the sole candidate for that office, the office shall be declared vacant and filled in accordance with Art. V Sec. 5.

Before the ballot box is opened, the Electoral Committee shall prepare and record the official Present Candidates List and compare it with the final ballot.

3.0 Acceptance Deadline

For the 2026 election, all nominations and nominee acceptances must be completed no later than 11:59 PM on Sunday, October 25, 2026, in accordance with the published 2026 Election Timetable. Acceptance must be affirmative and in writing or through an approved electronic method under Section 4.13. A nomination that has not been personally accepted by the nominee by this deadline will not proceed to candidate screening or final ballot consideration. Silence or failure to submit acceptance by the deadline means no acceptance and therefore no ballot placement under Sections 2.0(c) and 2.0(d).

3.1 Candidate Acceptance & Profile Form

Each candidate whose operative nomination remains active shall submit an official MPU Candidate Acceptance & Profile Form by the published acceptance deadline. The form shall document, at minimum: the candidate's full name and LGA; the office sought; affirmative acceptance of that specific nomination; confirmation of willingness to serve if elected; acknowledgment of the candidate-presence requirement under 2.0(f); confirmation that the candidate meets the applicable constitutional qualifications for the office; current contact information; and a short candidate profile or biography for member information.

Submission of the profile form does not create any qualification beyond those required by the MPU Constitution and these published election procedures. Eligibility shall be determined from the Constitution and certified MPU records. The form is an administrative record used to document acceptance, candidate information, and compliance with the published deadline.

The form shall be submitted through the MPU Candidate Portal or another submission method expressly published by the Electoral Committee under Section 4.13. Electronic submissions, including email or WhatsApp where authorized, must be attributable to the candidate through verified contact information, capable of being retained and printed, and received by the published deadline. If affirmative acceptance is not received by 11:59 PM Eastern Time (ET) on Sunday, October 25, 2026, the nomination shall be treated as not accepted under Section 2.0(c).

3.1A Candidate Screening - Article V, Section 4 Office-Holding Restrictions

During candidate screening, the Electoral Committee shall verify the applicable office-holding restrictions in Article V, Section 4, including prior service and term limits, the one-position-at-a-time rule, and the spouse office-holding restriction. Article V, Section 4 provides that no husband and wife shall hold office at the same time. Because the Constitution prohibits simultaneous office-holding but does not expressly state that spouses may not both be candidates, the Committee shall not create an automatic candidacy disqualification solely because both spouses are nominated. Any potential simultaneous-office conflict shall be flagged and documented before final certification. If the Constitution does not supply the method for resolving an actual unresolved conflict, the matter shall be handled under Article XII. This screening check shall be applied uniformly and shall not create any qualification or disqualification beyond the Constitution.

3.1B Eligibility Records Cutoff - Administrative Freeze Only

The October 18, 2026 Official Eligibility Records Cutoff is an election-administration records-freeze date. It identifies the official membership, attendance, financial, LGA, and related records the

Electoral Committee will use for screening and voter-register administration. It does not extend, replace, or create a constitutional deadline for satisfying financial standing, attendance, membership duration, or any other eligibility requirement. Constitutional eligibility remains governed by the MPU Constitution, including the applicable requirement that dues and other qualifying conditions be satisfied when the Constitution requires them.

3.2 Official Candidate List and Sample Ballot

After the October 25 nomination and acceptance deadline and completion of candidate screening on October 26-28, the Electoral Committee shall publish a PROVISIONAL Candidate List on Saturday, October 31, 2026. The provisional list remains subject to the published correction, clarification, and complaint process through November 3. After the regular withdrawal deadline of 11:59 PM ET on Tuesday, November 3, the Electoral Committee shall publish the FINAL Candidate List on Wednesday, November 4, 2026. Within each contested office, candidate names shall be listed alphabetically by surname unless the MPU Constitution expressly requires another order.

After the Final Candidate List is established, the Electoral Committee shall prepare and distribute a sample ballot showing the qualified candidates and the office for which each candidate is standing, including the applicable LGA-specific Board seats. Every sample ballot distributed electronically or in print shall be prominently marked "SAMPLE BALLOT - FOR EDUCATION ONLY - NOT FOR VOTING."

3.3 Distribution of Candidate Information and Sample Ballot

The Electoral Committee shall distribute the Provisional Candidate List, Final Candidate List, sample ballot, and other official candidate information through designated MPU communication channels. The official MPU WhatsApp platform may be used for publication together with email, the MPU portal, or another channel identified by the Electoral Committee. Each published list shall be clearly labeled PROVISIONAL or FINAL and shall display its publication date and, where material, the publication time.

Members and candidates should promptly report clerical errors, name misspellings, office-placement errors, omissions, or other documented record discrepancies within the applicable timetable window. Corrections discovered after ballot printing remain governed by Section 4.10. Publication of candidate information or a sample ballot through WhatsApp, email, or the MPU portal does not authorize electronic voting; official voting remains by secret paper ballot under Section 4.13(g).

4.0 Simple Majority

Per Art. V Sec. 3, candidates are elected by a simple majority of the votes of eligible members present and voting. For these procedures, a simple majority means more than fifty percent (>50%) of the valid votes cast for that specific office.

A valid vote is one properly marked X or check mark for a candidate, or a valid YES/NO selection in an uncontested race.

A blank selection is an abstention. It does not count as a valid vote for that office, but it does not affect the validity of properly marked selections for the other offices on the ballot.

The following are also excluded when calculating valid votes for that office: an overvote or other office-specific void under Section 4.3; an LGA voting violation affecting that office; and a ballot voided in its entirety under Section 4.3.

Formula: Valid Votes for Office = Ballots Cast - Blanks/Abstentions for that Office - Office-Specific Voids - Whole-Ballot Voids.

The successful candidate must receive more than half of the valid votes cast for that office.

Example: 32 valid votes require 17 votes for a simple majority. A 16-16 result does not constitute a simple majority and proceeds under Section 4.8.

For an uncontested YES/NO race, YES must exceed NO and must also exceed 50% of the valid YES/NO votes cast; otherwise the office is vacant under Section 4.7.

4.1 Ballot Structure

The ballot contains 17 office sections: 10 Executive offices - President, Vice President, Secretary, Assistant Secretary, Financial Secretary, Treasurer, PRO, Director of Socials, Provost 1, and Provost 2 - plus 7 Board positions: Board Chairman (all eligible voters), 2 Ahiazu Mbaise seats, 2 Ezinihitte Mbaise seats, and 2 Aboh Mbaise seats. Ballot colors are BLUE for Ahiazu Mbaise, GREEN for Ezinihitte Mbaise, and YELLOW for Aboh Mbaise. Other LGA sections are greyed and marked DO NOT MARK. For election administration, the three LGA classifications are Aboh Mbaise, Ahiazu Mbaise, and Ezinihitte Mbaise. Ahiara is part of Ahiazu Mbaise and is not a separate LGA classification.

4.2 LGA Isolation

Per Art. V Sec. 10, LGA Board positions are voted on only by members of that LGA. No proxy voting. Marking another LGA section voids that office section only under 4.3; the remainder of the ballot remains valid.

4.3 Shading, Voids, and Replacement Ballots

VALID: One X or one check mark clearly placed in the appropriate candidate box shall be counted.

ABSTENTION: A blank office section is an abstention. It counts as no vote for that office; the other properly marked office sections remain valid.

VOID - OFFICE ONLY: If a voter marks more candidates than permitted for an office, that office selection is void. All other properly marked office sections on the ballot remain valid.

LGA VIOLATION - OFFICE ONLY: An LGA voting violation shall void only the affected LGA office selection. For example, a BLUE/Ahiazu Mbaise voter marking a GREEN/Ezinihitte Mbaise Board position shall not have that GREEN selection counted. The remaining valid selections on the ballot remain unaffected.

REPLACEMENT BEFORE DEPOSIT: A voter who discovers an error before depositing the ballot may request a replacement without disclosing how the ballot was marked. The spoiled ballot shall be surrendered, marked CANCELLED without examination of voter choices, retained separately for reconciliation, and replaced.

VOID - WHOLE BALLOT: A ballot containing the voter's name, signature, telephone number, membership number, or other information reasonably capable of identifying the voter shall be void in its entirety because ballot secrecy has been compromised. An accidental stray mark that does not identify the voter shall not by itself void the entire ballot.

CANDIDATE PRESENCE: Candidate presence shall be verified under Section 2.0(f) before voting begins. If an accepted candidate is absent at the call for election, votes cast for that candidate shall not be counted for that office. Properly marked selections for the other offices remain valid.

4.4 Gate Accreditation and Ticket Issuance

At the gate, the election official shall verify the member against the approved voter eligibility / Good Standing records and confirm the member's LGA. A numbered raffle ticket in the applicable color - BLUE for Ahiazu Mbaise, GREEN for Ezinihitte Mbaise, or YELLOW for Aboh Mbaise - shall then be issued. The clerk shall record the ticket number next to the member's name and mark Present at Gate. The ticket is an accreditation and ballot-control document only; it is not a ballot and does not by itself establish that the member has voted.

After gate accreditation, the member shall proceed to the Voting Table. Ticket surrender, voter-register signature, ballot issuance, and Present at Voting verification are governed by Section 4.16A.

4.5 Counting - LGA Isolation - Article V, Section 10

After the ballot box is closed and reconciliation is completed, ballots shall be separated into three LGA groups: BLUE - Ahiazu Mbaise; GREEN - Ezinihitte Mbaise; YELLOW - Aboh Mbaise.

The 10 Executive Council positions and the Board Chairman position shall be counted using all three ballot groups because every eligible member is entitled to vote for those offices.

The two Ahiazu Mbaise Board positions shall be counted from BLUE ballots only. The two Ezinihitte Mbaise Board positions shall be counted from GREEN ballots only. The two Aboh Mbaise Board positions shall be counted from YELLOW ballots only.

This implements Article V, Section 10, under which the LGA representatives on the Board are voted for only by members of the respective LGA.

Votes shall be tallied separately for each office using an official tally sheet. A visible tally method such as IIII may be used during the count, but the final totals shall be entered on and certified through the Official Result Form.

4.5A Counting Team - Caller + Two Independent Recorders

The counting team shall consist of at least three designated election officials with clearly separated duties.

Person 1 - Caller / Ballot Controller: Opens the ballot box under the supervision of the Electoral Committee Chair, separates ballots into the required BLUE, GREEN, and YELLOW groups, and calls each valid vote aloud by office and candidate. The Caller shall not record vote totals. Each ballot shall be displayed sufficiently for the two recorders and authorized observers to verify the announced vote while preserving ballot secrecy.

Person 2 - Recorder A / Wall Tally: Independently records each announced vote on the visible wall or chart tally using the agreed tally method, such as IIII. Recorder A shall not handle ballots.

Person 3 - Recorder B / Official Result Form: Independently records the same announced votes on the Official Result Form. Recorder B shall not handle ballots.

4.5B Tally Comparison, Recount, Corrections, and Certification

At the completion of each office, the Wall Tally and Official Result Form shall be compared. If the totals do not agree, counting for that office shall be paused and the ballots for that office shall be recounted before proceeding.

No erasures shall be made on official tally records. Any correction shall be made by striking through the incorrect entry with a single line, entering the corrected figure, and having both recorders initial the correction.

Ballot and voter reconciliation shall be conducted under Section 4.11 by the counting team and Electoral Committee together. No single recorder shall unilaterally certify reconciliation.

After all offices have been counted and reconciled, the Caller, both Recorders/Tellers, and Electoral Committee Chair shall review the final totals before certification. Authorized observers may witness the process but shall not handle ballots or direct the count.

Documented Recount Request. Before certification of an office result, the Electoral Committee may order one recount where there is an objective, documented reason to question the count, including an arithmetic discrepancy, disagreement between official tally records, unresolved ballot-classification issue, or another specific counting irregularity capable of affecting the result. A request based only on dissatisfaction with the outcome, without a stated objective basis, does not by itself require a recount. Any recount ordered shall be conducted under the same counting controls in Sections 4.5, 4.5A, and 4.5B and recorded in the election file.

4.6 Uncontested Race - No Acclamation

Even where only one eligible candidate appears for an office, the candidate shall appear on the secret ballot as YES [ ] / NO [ ]. Acclamation is not used because Art. V Sec. 10 requires secret ballot.

4.7 Vacancy

If an office is not filled because an uncontested candidate fails to obtain the required simple majority, no candidate shall be declared elected for that office. Any resulting vacancy shall be handled strictly under the applicable MPU constitutional provisions. For an office other than President, Article V, Section 5 provides that the President shall appoint an active member temporarily until an election is held to fill the vacancy at the next general meeting, or, if not feasible at that meeting, no later than three (3) months; that vacancy election is conducted by the Executive Council in accordance with Article V, Section 10. Article V, Section 5 expressly excludes the office of President. Any unresolved presidential-vacancy question or other genuine constitutional gap shall be handled under the applicable constitutional provisions, including Article XII where necessary. These Rules create no additional disqualification from temporary appointment.

4.8 Tie and Failure to Obtain Simple Majority

(a) Tie for Highest Vote. If two or more candidates are tied for the highest number of valid votes and no candidate has obtained a simple majority, an immediate runoff shall be conducted among the tied candidates.

(b) No Majority / No Tie. If no candidate receives more than 50% of the valid votes cast and there is no tie, the two candidates receiving the highest numbers of valid votes shall proceed to an immediate runoff. Example: A = 18 votes (45%), B = 14 votes (35%), C = 8 votes (20%); valid votes = 40 and majority required = 21. No candidate has 21 votes, so A and B proceed to runoff.

If second place is tied - for example A = 18, B = 11, C = 11 - the runoff shall initially include A, B, and C. If that three-candidate runoff still produces no simple majority, the two candidates with the highest vote totals in that runoff shall proceed to a second and final runoff.

(c) Runoff Ballot. A runoff may use either a fresh official ballot using the regular ballot format, with only the runoff office counted, or a clearly marked handwritten runoff ballot listing only the runoff office and eligible runoff candidates. Either method must preserve the secret-ballot requirement.

(d) Eligible Runoff Voters. Only eligible members who are entitled to vote in the election and who remain present for the runoff may participate.

(e) Majority Required. A runoff winner must receive more than 50% of the valid votes cast in that runoff.

(f) Final Runoff Tie. If the final runoff results in a tie, the office shall be declared vacant and handled pursuant to Article V, Section 5. No coin toss, drawing of lots, or other random selection shall be used.

4.9 Late Withdrawal

A candidate withdrawal must be submitted in writing to the Electoral Committee.

Before ballot printing: the candidate's name shall be removed from the ballot.

After printing but before voting begins: the candidate's name may remain printed, but a notice shall be posted stating that votes cast for the withdrawn candidate will not be counted.

After voting has begun: the ballot shall not be altered. If the withdrawn candidate receives the result that otherwise would have elected the candidate, the office shall be declared vacant and handled in accordance with Article V, Section 5.

4.10 Correction of Omission or Misspelling

If a candidate name is omitted or misspelled after printing: (i) post a written correction at the gate and voting table before voting; (ii) announce the correction three times verbally; (iii) record the correction in the minutes and Result Form; and (iv) if the error is misleading, reprint that office section as a clearly marked handwritten correction slip stapled to the regular ballot, consistent with 4.8(C).

4.11 Reconciliation

Before counting begins, the Electoral Committee shall reconcile the voting records.

Tickets surrendered for voting = **voter-register signatures** = **ballots issued for voting.**

Ballots cast + **spoiled/cancelled ballots** = **ballots issued for voting.**

Unused ballots shall be separately counted and recorded. Tickets issued but not surrendered for voting shall also be recorded separately and shall not be treated as ballots cast.

Reconciliation shall be completed separately as necessary to confirm LGA ballot distribution and compliance with Section 4.5.

Candidate presence shall have been verified and recorded before voting pursuant to Section 2.0(f).

Records supporting reconciliation, candidate presence, acceptance, nominations, notices, corrections, withdrawals, payments, and election certification may be maintained electronically in accordance with Section 4.13, provided the records are retrievable, printable, and retained in the official election file. Technology shall not replace the secret paper ballot required for voting.

4.12 Constitutional Authority, Publication, and Lacuna

Electoral Committee election procedures. Article V, Section 3(d) authorizes the Electoral Committee to set and publish election guidelines, and requires those guidelines to conform to Article V, Section 10. For the 2026 election, the Committee shall complete review and final adoption of these Rules by Sunday, October 4, 2026; transmit the adopted Rules to the MPU Executive Council on Monday, October 5, 2026 for administrative notice and coordination; and officially publish the Rules to the membership on Tuesday, October 6, 2026 through designated MPU communication channels. Executive Council receipt is administrative notice and does not become an additional approval requirement unless the Constitution requires it.

Committee publication backstop. For orderly election administration, the Electoral Committee has established Sunday, October 25, 2026 as the latest internal publication backstop for any supplemental election procedure intended to govern the November 15, 2026 election. This twenty-one-day backstop is a 2026 committee safeguard and is not stated in Article XII as an independent constitutional publication requirement.

Genuine constitutional gaps. Article XII governs matters or issues not covered or provided for in the Constitution. Under Article XII, the Executive Council presents such a matter to the General Assembly for deliberation and decision. If the matter is urgent or an emergency that cannot await the General Assembly, the President, in consultation with at least two (2) other Executive Council members, may take appropriate action and thereafter report to the General Assembly. The Electoral Committee shall not use an administrative guideline to amend the Constitution or independently resolve a genuine constitutional lacuna reserved to Article XII.

4.13 Use of Technology - Official Notices, Election Information, Consent, Acceptance, Payments, and Records

To the extent permitted by the MPU Constitution and applicable law, approved electronic methods may be used for election administration, official notices, candidate communications, voter and candidate education, publication of election information, payments, and recordkeeping. Use of technology under this section does not authorize electronic voting.

(a) Official Electronic Channels and Notices. The Electoral Committee may designate official election communication channels, including email, text message, the official MPU WhatsApp platform, and the MPU portal. Official notices may include nomination information, acceptance deadlines, withdrawal notices, corrections under Section 4.10, screening or presence-verification communications, election schedules, and other election-administration notices. Member- or candidate-specific notices requiring an individual response should be directed to the verified contact information on record or another verified channel designated by that person.

(b) WhatsApp Publication, Financial Standing, and Election Education. The official MPU WhatsApp platform may be used to publish general voter and candidate education, the election timetable, deadlines and reminders, financial-standing information used for election administration, provisional and final voter or candidate information, sample-ballot education, Election Day instructions, corrections, and certified results. Where financial standing is published, the posting should be limited to the election-relevant standing customarily used by MPU and should not disclose bank-account information, payment credentials, or other unnecessary private financial details. Official voter-education communications shall be neutral and shall not promote or criticize any candidate.

(c) Status and Authentication of Published Lists. Any voter, financial-standing, or candidate list published for election administration shall be clearly identified as PROVISIONAL or FINAL and shall include the publication date and, where material, the time. An official Electoral Committee posting should be identifiable as an MPU 2026 Electoral Committee communication. A forwarded screenshot, member repost, comment, reaction, poll response, or other unofficial reproduction does not replace the controlling official record. The Final Voter Register and Final Candidate List published on November 4, 2026 shall serve as the controlling election-administration records, subject only to documented administrative correction, a properly recorded late withdrawal, or action required under the MPU Constitution or these Rules.

(d) Signatures, Consent, Acceptance, Switches, and Withdrawals. A signature, consent, acceptance, switch request, or withdrawal required under these Rules may be satisfied by an electronic signature or a clear written confirmation transmitted from the member or candidate's verified email address, verified WhatsApp number, Candidate Portal account, or another approved attributable electronic method. The communication must clearly identify the action being taken and be retrievable and printable. A reaction emoji, "like," informal group comment, forwarded message, or ambiguous response shall not by itself constitute formal acceptance, withdrawal, switch, complaint, or other required filing.

(e) Payments. An electronic payment method, including Zelle or bank transfer, may be used for dues or other payments relevant to Good Standing verification, provided a receipt or other verifiable record is retained. Electronic payment is a method of payment only. It does not extend or alter the constitutional time at which financial standing must be satisfied. The October 18 eligibility-record

cutoff is an administrative records freeze under Section 3.1B, not a new opportunity to cure or redefine a constitutional eligibility requirement.

(f) Electronic Delivery, Timestamp, Failed Delivery, Corrections, and Records. Unless a published rule states otherwise, electronic election deadlines are measured in Eastern Time (ET). An official electronic communication is timestamped when transmitted through the designated channel to the verified address, number, account, or official group. If the Electoral Committee receives a bounce-back, failed-delivery notice, or other reliable indication that an individual notice did not reach the intended verified contact, the Committee should make a reasonable attempt through another approved channel and document that attempt. A corrected official posting shall be clearly marked CORRECTION or SUPERSEDING NOTICE, dated and timed, and both the original and corrected communication shall be retained in the election record. Official electronic election communications and attachments shall be retained in a retrievable and printable form, including sufficient information to identify the sender, recipient or channel, and date/time of transmission. Candidate- or member-specific private information should be communicated privately unless publication is required by the MPU Constitution or a duly adopted MPU rule.

(g) Secret Paper Ballot - No Electronic Voting. Nothing in this Section authorizes voting by email, WhatsApp, text message, portal, electronic voting software, or any other electronic ballot. Election of officers shall remain by secret paper ballot as required by the MPU Constitution, using the ballot-marking and handling procedures in Sections 4.1 through 4.4 and the Election Day procedures in Section 4.16.

4.14 Counting Oversight and Authorized Observers

Ballot counting and reconciliation shall be conducted under Sections 4.5, 4.5A, 4.5B, and 4.11 in the presence of the Chair / Chief Electoral Officer and designated tellers. The Electoral Committee may also permit authorized observers in accordance with the published election procedures. Observers may witness the count but shall not handle ballots, direct tellers, interfere with counting, or compromise ballot secrecy.

The same observation rules shall be applied uniformly. Candidates are not automatically entitled to serve as tellers or handle ballots merely because they are candidates; any observer access must be authorized and administered consistently by the Electoral Committee.

Candidate Observer Protocol. For each contested office, each candidate may designate no more than one observer for the counting process, subject to available space and the same uniform rules for all candidates. An observer may witness the count from the designated observer area and may see and hear the announced vote totals, but shall not handle ballots, touch tally or result forms, direct tellers, interrupt the count, or compromise ballot secrecy. Any concern raised by an observer shall be directed to the Electoral Committee Chair or presiding election official and, where material, recorded in the Election Day Incident / Assistance / Challenge Log. Observer participation does not make the observer an election official and does not give the observer authority to certify the result.

4.15 Election Records, Certification, and Publication of Results

The Electoral Committee shall preserve the official election record, including the Committee appointment and General Assembly approval/ratification record required by the Constitution; nomination records; Candidate Acceptance & Profile Forms; acceptance and switch records; eligibility determinations; Provisional and Final Candidate Lists and sample ballots; presence-verification records; voter-register and ticket reconciliation records; spoiled/cancelled-ballot logs; tally sheets; recount requests and recount records; Election Day Incident / Assistance / Challenge Logs; ballot-box opening/seal records; constitutional-issue referral records; the Election Day Notice; runoff records; correction notices; withdrawal notices; and the final certified result form.

Records may be retained in paper or retrievable electronic form. Electronic records shall be stored in a format that can be retrieved and printed and shall be transferred to or retained by the appropriate MPU record custodian, including the Secretary where required by the Constitution.

Certified election results shall be announced at the election meeting and may thereafter be published through the designated official MPU communication channels, including the official MPU WhatsApp platform, email, or the MPU portal. The published result notice shall be clearly identifiable as an Electoral Committee communication and retained in the official election record. Publication of certified results shall not disclose how any individual member voted and shall preserve ballot secrecy.

4.16 Election Day Event - MPU 2026 General Election Meeting

The MPU 2026 General Election shall be conducted at the duly scheduled General Election Meeting on Sunday, November 15, 2026, in accordance with the MPU Constitution and these published Electoral Committee Rules and Procedures.

Before voting begins, the Electoral Committee shall:

- confirm the constitutional quorum for the meeting;
- confirm the final voter register and final candidate list;
- verify candidate presence in accordance with Section 2.0(f);
- verify the LGA designation of each eligible voter;
- prepare and secure the ballot box, tally materials, official result forms, and reconciliation records; and
- prepare the appropriate BLUE, GREEN, and YELLOW ballots for controlled issuance at the Voting Table under Section 4.16A.

4.16A Voting Table, Ballot Issuance, and Secret Voting

Election Day voting flow: Gate Accreditation -> Ticket Issued -> Voting Table -> Ticket Surrendered -> Voter Register Signed -> Ballot Issued -> Secret Vote -> Ballot Deposited -> Reconciliation -> Counting.

At the Voting Table, the member shall surrender the numbered accreditation ticket and sign the Voter Register before receiving a ballot. The election official shall confirm the ticket color / LGA against the register, issue the corresponding BLUE, GREEN, or YELLOW ballot, and record Present at Voting. A ballot shall not be issued without the required ticket surrender and voter-register signature, except where a documented administrative correction is authorized under these published rules.

After receiving the ballot, the voter shall proceed to the designated secret-voting area, mark the ballot privately in accordance with Sections 4.1 through 4.3, and personally deposit the ballot in the official ballot box. No person may inspect or require disclosure of how a voter marked the ballot.

- voting shall be by secret paper ballot only; no proxy voting shall be permitted;
- each eligible voter may cast one vote for each applicable office;
- all eligible members may vote for the 10 Executive Council offices and the Board Chairman;
- only eligible members of each respective LGA may vote for that LGA's two Board representative seats; and
- ballots shall be marked, reviewed for voter-detected errors before deposit, and handled under Sections 4.1 through 4.3.

When voting closes, the Electoral Committee shall:

- publicly announce that voting is closed; after that announcement, no further ballot shall be issued or accepted;
- reconcile accreditation tickets, voter-register signatures, ballots issued, ballots cast, spoiled/cancelled ballots, and unused ballots under Section 4.11;
- begin counting only after reconciliation is completed, using Sections 4.5, 4.5A, and 4.5B;
- apply Section 4.8 to any tie or no-majority situation; and
- record, certify, announce, and preserve the results under Sections 4.13 through 4.15.

Election Day times are not fixed by this section. Any accreditation, opening, or closing times adopted for the 2026 election shall be announced separately by the Electoral Committee in the Election Day Notice.

Operational principle: accreditation confirms who may proceed to the Voting Table; the signed Voter Register and surrendered ticket document ballot issuance; the deposited secret ballot records the vote; and Section 4.11 reconciles those records before counting begins.

5.0 ELECTION DAY CONDUCT, INTEGRITY & INCIDENT RESPONSE

This section supplements, and does not duplicate, the Election Day procedures already stated in Sections 4.1 through 4.16A. It addresses member conduct, protection of the secret ballot, election interference, assisted voting, immediate administrative response, incident documentation, and ballot-box opening verification. The MPU Constitution controls at all times.

5.1 Member Conduct During the Election Meeting

All members remain subject to Article X of the MPU Constitution throughout the election meeting. The following conduct is prohibited:

- verbal attack, screaming, or yelling against another member while the meeting is in session;
- physical attack against another member;
- unauthorized interruption when another member has the floor;
- noise making or other disruptive behavior during the meeting;
- fighting, physical assault, drunkenness, lewd behavior, or indecent exposure;
- malicious gossip or spreading falsehood against a member or a member's family;
- purposeful sabotage of MPU or the Executive Council;
- failure to cooperate in good faith with an authorized investigation; and
- angrily leaving the meeting in the middle of deliberation or disagreement without permission from the Executive Council.

Nothing in this section expands Article X or creates a new disciplinary offense beyond the MPU Constitution and these constitutionally authorized election-administration rules.

5.2 Protection of Secret Ballot and Voting Integrity

Article V, Sections 3(e) and 10 require election by secret ballot, prohibit proxy voting, and limit each eligible member to one vote for each applicable office. To preserve those constitutional requirements:

- no person may intentionally interfere with another member's secret vote or require disclosure of how another member voted;
- no person may vote on behalf of another member, vote more than once, or attempt to place an unauthorized ballot into the ballot box;
- photographing, video-recording, or deliberately displaying a completed ballot in a manner that compromises ballot secrecy is prohibited;
- no unauthorized person may possess, handle, alter, remove, or interfere with official ballots, the ballot box, voter register, tally sheets, result forms, reconciliation records, or other controlled election materials; and
- no person may deliberately interfere with counting, reconciliation, certification, or another member's lawful exercise of the right to vote.

Ballot validity remains governed by Sections 4.1 through 4.3. Misconduct is not, by itself, a basis to void an otherwise valid ballot unless the published ballot-validity rules require that result.

5.3 Electioneering in the Controlled Voting and Counting Area

Under the Electoral Committee's authority in Article V, Section 3(d) to conduct the election and publish guidelines consistent with Article V, Section 10, campaigning, solicitation of votes, distribution

or display of campaign materials, or other candidate advocacy shall not occur inside the designated voting or counting area once voting begins. This restriction does not prohibit ordinary member conversation outside the controlled election area, provided it does not disrupt the meeting or interfere with voting, counting, or ballot secrecy.

5.4 Assisted Voting

An eligible voter who, because of a disability or other legitimate limitation, is unable to mark or deposit the ballot independently may request assistance from the Electoral Committee before marking the ballot. The voter may be assisted by one trusted adult chosen by the voter, provided the helper is not a candidate for an office appearing on that voter's ballot. If the voter does not wish to choose a helper, two neutral Electoral Committee members may provide assistance. Assistance shall be limited to carrying out the voter's expressed choices. No helper or Electoral Committee member may influence, suggest, disclose, or require disclosure of the voter's selections. The Election Day Incident / Assistance / Challenge Log shall record that assistance was requested and provided, the name(s) of the helper(s), and the time of assistance, but shall not record how the voter voted. Assisted voting does not constitute proxy voting because the eligible voter personally directs and casts the voter's own ballot.

5.5 Immediate Electoral Committee Response to Election Interference

Where conduct threatens ballot secrecy, orderly voting, election materials, reconciliation, counting, or certification, the Electoral Committee may take reasonable immediate administrative action necessary to protect the election process. Such action may include:

- pausing the affected voting, counting, or reconciliation activity;
- securing ballots, the ballot box, or other official election materials;
- preventing duplicate voting, proxy voting, or unauthorized ballot handling;
- directing an unauthorized person away from the controlled voting or counting area when necessary to stop continuing interference; and
- preserving relevant records or other evidence for the official Election Day record.

These actions are administrative and protective only. This section does not give the Electoral Committee independent authority to impose a constitutional fine, suspension, termination of membership, or other disciplinary sanction.

5.6 Incident Documentation and Constitutional Referral

Any significant Election Day misconduct, voting-integrity concern, disruption, ballot-security incident, assisted-voting event requiring documentation, or administrative intervention shall be recorded in the Election Day Incident / Assistance / Challenge Log already required under Section 4.15 and Appendix I. The entry should include, as applicable:

- date and time of the incident;
- person or persons involved;
- description of what occurred;
- office, ballot, or election record affected, if any;
- witnesses;
- immediate Electoral Committee action taken;

- applicable constitutional or election-rule reference;
- disposition or referral; and
- initials or signatures of the presiding Electoral Committee official and one additional Electoral Committee member where practicable.

Article X, Section 2 provides that a violation of the MPU Code of Conduct may be subject to a minimum fine of $20 per violation and/or suspension, up to termination of membership. Any matter requiring such disciplinary sanction shall be referred to the constitutionally appropriate MPU body or process; the Electoral Committee shall not impose that sanction independently.

5.7 Ballot Box Opening Verification

Before the first ballot is issued, the Electoral Committee shall visibly confirm that the official ballot box is empty and shall then secure the box for voting. The Election Day record shall document the date and time of verification; the ballot-box identifier, if one is used; any seal or control number used; the names of Electoral Committee officials present; the names of any authorized observers present; any objection raised before the box is secured; and the initials or signatures of the presiding Electoral Committee official and at least one additional Electoral Committee member. If no objection is raised, the record may state "No objection recorded." This verification supplements the ballot-box preparation requirement already stated in Section 4.16.

APPENDIX A - SHADING & PRESENT-ONLY GUIDE

Operational reference for voters and election officials

Example	Status	Action	Present-Only Note
[X] or [check] in one candidate box	VALID	Count the vote	Voter must be eligible and present
Blank office section	VALID ABSTENTION	0 votes for that office; other sections count	-
Two selections in same office section	VOID - OFFICE ONLY	Do not count that office section	-
BLUE voter marks GREEN/YELLOW LGA section	VOID - OFFICE ONLY	Do not count the ineligible LGA section	-
Name/phone/signature identifying voter	VOID - WHOLE BALLOT	Do not count the ballot	-
Accepted candidate absent at call for election	NOT COUNTED FOR THAT OFFICE	Votes for absent candidate are not counted; all other valid sections remain valid	Art. V Sec. 10 - candidate presence required
A=18, B=14, C=8; 40 valid; 21 needed	NO MAJORITY	Runoff between top two: A vs. B	-

APPENDIX B - GATE SHEET V20

Acceptance + Candidate Presence Verification

S/N	Member	LGA	Color	Ticket	Accept?	Present?	Operative Nomination	Auto-Reject / Change Log	Final Ballot Status
1	John Chukwu	Ahiazu Mbaise	BLUE	B-001	YES - President	Present	President - Mon 10:00 a.m.	Secretary - Tue 2:00 p.m. rejected/recorded	President on ballot
2	Emeka Udo	Ezinihitte Mbaise	GREEN	G-001	NO	Present	VP - Mon 11:00 a.m.	-	NO BALLOT - no consent
3	Ada Nwosu	Aboh Mbaise	YELLOW	Y-001	YES - Aboh Mbaise 1	ABSENT	Aboh Mbaise 1	-	On ballot; absent at call for election - votes not counted under 2.0(f)
1									
2									
3									
4									
5									

Official use: verify good standing, LGA, acceptance, operative nomination, and candidate presence consistently before voting begins.

APPENDIX C - OFFICIAL RESULT FORM V20

Use one or more candidate rows for each office as needed

Office	Candidate	Votes	Valid Votes for Office	Majority Required (>50%)	Result / Runoff / Vacancy / Presence Note
President					
Vice President					
Secretary					
Assistant Secretary					
Financial Secretary					
Treasurer					
PRO					
Director of Socials					
Provost 1					
Provost 2					
BOD Chairman (All)					
BOD Ahiazu Mbaise 1 - BLUE					
BOD Ahiazu Mbaise 2 - BLUE					
BOD Ezinihitte Mbaise 1 - GREEN					
BOD Ezinihitte Mbaise 2 - GREEN					
BOD Aboh Mbaise 1 - YELLOW					
BOD Aboh Mbaise 2 - YELLOW					

CERTIFICATION: The Electoral Committee certifies that nomination controls, affirmative acceptance, candidate-presence verification, simple-majority calculation, LGA isolation, the three-person counting process with independent tally comparison, runoff procedures, and ballot reconciliation were applied in accordance with these published rules.

APPENDIX D - MPU CANDIDATE ACCEPTANCE & PROFILE FORM

For use with Sections 2.0(c), 3.1, 3.1A, 3.2, and 4.13

Submission Deadline: 11:59 PM on Sunday, October 25, 2026. Completed Candidate Acceptance & Profile Forms and nominee acceptances must be received by the Electoral Committee by this deadline. A nomination that has not been affirmatively accepted by the nominee by the deadline will not proceed to candidate screening or final ballot consideration, except for a documented administrative correction or action required by the MPU Constitution or these published rules.

Candidate Full Name	
LGA	
Office Sought	
Email Address	
Phone / WhatsApp	

Candidate Declarations

☐ I affirmatively accept nomination for the office identified above and confirm my willingness to serve if elected.

☐ I confirm that, to the best of my knowledge, I meet the applicable MPU constitutional qualifications for the office sought.

☐ I acknowledge the Article V, Section 4 spouse office-holding restriction and will disclose any current or potential husband-and-wife simultaneous office conflict for Electoral Committee screening.

☐ I acknowledge the candidate-presence requirement under Section 2.0(f) and understand that candidate presence will be verified at the call for election.

☐ I understand that only one office may appear as my operative candidacy on the final ballot and that any timely switch request must comply with Section 2.0(e).

☐ I authorize the Electoral Committee to publish the candidate profile information I provide below for election-information purposes.

Candidate Acknowledgment and Acceptance

Please note: timely completion and submission of this form is required to document the candidate's affirmative acceptance and to permit the nomination to proceed to screening and final ballot consideration. Submission of the form does not by itself establish constitutional eligibility.

I affirmatively accept nomination for the office identified on this form. If elected, I agree to serve and to carry out the responsibilities of the office in accordance with the MPU Constitution, applicable governing documents, and duly adopted election rules and procedures.

I understand that eligibility to appear on the final ballot is determined from the MPU Constitution, official MPU membership, attendance, financial, and other applicable records, and the published 2026 Election Rules and Procedures. I also acknowledge the candidate-presence requirement under Section 2.0(f).

Screening note: The Electoral Committee will review Article V, Section 4 restrictions, including term history, the one-position rule, and the spouse office-holding restriction, using official MPU records and candidate disclosures.

Candidate Profile / Biography

Provide a concise profile for publication to members. Suggested content: relevant MPU service, community/professional experience, qualifications, and key priorities. The Electoral Committee may apply a uniform word or character limit to all candidates.

APPENDIX E - SAMPLE GATE RAFFLE TICKETS

GATE CONTROL ONLY - NOT A BALLOT

BLUE = Ahiazu Mbaise | GREEN = Ezinihitte Mbaise | YELLOW = Aboh Mbaise

Illustrative examples of ordinary commercially available numbered raffle tickets. No special MPU printing is required. The color and ticket number are used only for gate control, LGA identification, and reconciliation.

BLUE - Ahiazu Mbaise

GREEN - Ezinihitte Mbaise

YELLOW - Aboh Mbaise

Gate use: After eligibility and LGA verification, the gate clerk issues the appropriate color-coded numbered raffle ticket and records the ticket number next to the member's name. The voter is marked Present at Gate.

Voting-table use: The voter surrenders the raffle ticket and signs the Voter Register before receiving the corresponding official ballot. Surrendered tickets are retained for reconciliation. Ticket numbers must never be written on, attached to, or otherwise linked to a voter's marked ballot.

The raffle ticket is not a voting ballot.

APPENDIX F - SAMPLE BLUE BALLOT (Ahiazu Mbaise) - HOW THE LGA BALLOT WILL LOOK

ILLUSTRATION ONLY - NOT AN OFFICIAL VOTING BALLOT

Mark ONE candidate per office using X or check mark. Blank = abstention for that office. Overvote = that office only is void. Name/phone/signature identifying the voter = whole ballot void. Greyed LGA rows are not for your LGA and must not be marked.

Office / Sample Candidate Choices	Example	Instruction
1. PRESIDENT ☐ Candidate A ☐ Candidate B	☒ Candidate A	VALID
2. VICE PRESIDENT ☐ Candidate A ☐ Candidate B	☐	Vote for ONE
3. SECRETARY ☐ Candidate A ☐ Candidate B	☒ A ☒ B	OVER VOTE - VOID THIS OFFICE ONLY
4. ASSISTANT SECRETARY ☐ Candidate A ☐ Candidate B	☐	Vote for ONE

Office / Sample Candidate Choices	Example	Instruction
5. FINANCIAL SECRETARY ☐ Candidate A ☐ Candidate B	☐	Vote for ONE
6. TREASURER ☐ Candidate A ☐ Candidate B	☐	Vote for ONE
7. PRO ☐ Candidate A ☐ Candidate B	☐	Vote for ONE
8. DIRECTOR OF SOCIALS ☐ Candidate A ☐ Candidate B	☐	Vote for ONE
9. PROVOST 1 ☐ Candidate A ☐ Candidate B	☐	Vote for ONE
10. PROVOST 2 ☐ Candidate A ☐ Candidate B	No mark	ABSTAIN - OTHER OFFICES STILL COUNT
11. BOD CHAIRMAN (ALL VOTE) ☐ Candidate A ☐ Candidate B	☐	Vote for ONE
12. BOD Ahiazu Mbaise Seat 1 ☐ Candidate A ☐ Candidate B	☐	ACTIVE - YOUR LGA (BLUE)
13. BOD Ahiazu Mbaise Seat 2 ☐ Candidate A ☐ Candidate B	☐	ACTIVE - YOUR LGA (BLUE)
14. BOD Ezinihitte Mbaise Seat 1 ☐ Candidate A ☐ Candidate B		**DO NOT MARK - NOT YOUR LGA**
15. BOD Ezinihitte Mbaise Seat 2 ☐ Candidate A ☐ Candidate B		**DO NOT MARK - NOT YOUR LGA**
16. BOD Aboh Mbaise Seat 1 ☐ Candidate A ☐ Candidate B		**DO NOT MARK - NOT YOUR LGA**
17. BOD Aboh Mbaise Seat 2 ☐ Candidate A ☐ Candidate B		**DO NOT MARK - NOT YOUR LGA**

APPENDIX G - SAMPLE GREEN BALLOT (Ezinihitte Mbaise) - HOW THE LGA BALLOT WILL LOOK

ILLUSTRATION ONLY - NOT AN OFFICIAL VOTING BALLOT

Mark ONE candidate per office using X or check mark. Blank = abstention for that office. Overvote = that office only is void. Name/phone/signature identifying the voter = whole ballot void. Greyed LGA rows are not for your LGA and must not be marked.

Office / Sample Candidate Choices	Example	Instruction
1. PRESIDENT ☐ Candidate A ☐ Candidate B	☒ Candidate A	VALID
2. VICE PRESIDENT ☐ Candidate A ☐ Candidate B	☐	Vote for ONE
3. SECRETARY ☐ Candidate A ☐ Candidate B	☒ A ☒ B	OVER VOTE - VOID THIS OFFICE ONLY
4. ASSISTANT SECRETARY ☐ Candidate A ☐ Candidate B	☐	Vote for ONE
5. FINANCIAL SECRETARY ☐ Candidate A ☐ Candidate B	☐	Vote for ONE
6. TREASURER ☐ Candidate A ☐ Candidate B	☐	Vote for ONE
7. PRO ☐ Candidate A ☐ Candidate B	☐	Vote for ONE
8. DIRECTOR OF SOCIALS ☐ Candidate A ☐ Candidate B	☐	Vote for ONE
9. PROVOST 1 ☐ Candidate A ☐ Candidate B	☐	Vote for ONE
10. PROVOST 2 ☐ Candidate A ☐ Candidate B	No mark	ABSTAIN - OTHER OFFICES STILL COUNT
11. BOD CHAIRMAN (ALL VOTE) ☐ Candidate A ☐ Candidate B	☐	Vote for ONE
12. BOD Ahiazu Mbaise Seat 1 ☐ Candidate A ☐ Candidate B		**DO NOT MARK - NOT YOUR LGA**
13. BOD Ahiazu Mbaise Seat 2 ☐ Candidate A ☐ Candidate B		**DO NOT MARK - NOT YOUR LGA**
14. BOD Ezinihitte Mbaise Seat 1 ☐ Candidate A ☐ Candidate B	☐	ACTIVE - YOUR LGA (GREEN)
15. BOD Ezinihitte Mbaise Seat 2 ☐ Candidate A ☐ Candidate B	☐	ACTIVE - YOUR LGA (GREEN)

17. BOD Aboh Mbaise Seat 2 ☐ Candidate A ☐ Candidate B	☐	ACTIVE - YOUR LGA (YELLOW)

APPENDIX I - ELECTION DAY INCIDENT / ASSISTANCE / CHALLENGE LOG

Use this log to document a specific Election Day operational issue, assisted-voting event, ballot-classification question, recount request, procedural challenge, misconduct concern, or other incident requiring Electoral Committee action. Recording an issue does not itself establish that a violation occurred. The Electoral Committee shall record the disposition and the rule or constitutional provision applied. For assisted voting, record only that assistance was requested/provided and the helper(s) involved; never record how the voter voted.

Date / Time	Incident / Assistance / Challenge	Reported By	Office / LGA	EC Action	Rule / Constitutional Basis	Disposition / Initials

Committee authority record: The official election file should contain the record showing appointment of the five-member Electoral Committee and the General Assembly approval/ratification required by Article V, Section 9. This appendix does not replace that underlying constitutional record.

APPENDIX J - BALLOT BOX OPENING & SEAL LOG

Election Day integrity record for the official ballot box

Complete before the first ballot is issued. This log documents the Section 5.7 verification that the ballot box was visibly confirmed empty and then secured for voting.

Field	Entry / Confirmation
Election Date	Sunday, November 15, 2026
Verification Time	_____
Ballot Box ID (if used)	_____
Seal / Control No. (if used)	_____
Box Visibly Confirmed Empty	[ ] Yes
Box Secured Before Voting	[ ] Yes
EC Officials Present	_____
Authorized Observers Present (if any)	_____
Objection Raised Before Securing Box	[ ] No [ ] Yes
If Yes, Describe / Incident Log Ref.	_____
Presiding EC Official - Name / Signature	_____
Second EC Member - Name / Signature	_____

If no objection is raised, the record may state: "No objection recorded." This form does not create a separate observer requirement.

APPENDIX K - CONSTITUTIONAL ISSUE REFERRAL RECORD

For genuine constitutional gaps or matters reserved to another MPU authority

This form is used when the Electoral Committee determines that an issue cannot be resolved through election administration alone. Completion of this form does not authorize the Electoral Committee to amend, suspend, or independently reinterpret the MPU Constitution.

Field	Record
Issue / Question	_____
Date Identified	_____
Relevant Constitutional Provision	_____
Why EC Cannot Resolve Administratively	_____ _____
Immediate Election Impact, if any	_____
Temporary Administrative Step Taken, if any	_____
Referred To	[ ] Executive Council [ ] President [ ] General Assembly [ ] Other constitutional authority
Date Referred	_____
Supporting Records Attached	[ ] Yes [ ] No
EC Chair / Presiding Officer Signature	_____
Secretary / EC Member Signature	_____

APPENDIX L - MPU 2026 GENERAL ELECTION - OFFICIAL ELECTION DAY NOTICE

Operational notice template - complete and publish through the designated official MPU channel

Election Day Information	Official Notice Entry
Date	Sunday, November 15, 2026
Venue	_____
Accreditation Begins	_____
Voting Opens	_____
Voting Closes	_____
Official EC Contact / Channel	_____

Important Election Day Reminders

- Only eligible members on the Final Voter Register may vote.
- Voting is by secret paper ballot only; proxy voting is not permitted.
- Candidates remain subject to the applicable candidate-presence requirement.
- Members shall follow the published gate accreditation, ticket surrender, voter-register signature, ballot issuance, secret-voting, reconciliation, and counting procedures.
- Campaigning or solicitation of votes is not permitted inside the controlled voting or counting area once voting begins.
- Members remain subject to the MPU Constitution, including Article X Member Conduct, and the adopted MPU 2026 Election Rules & Procedures.

Controlling Authority. If this notice conflicts with the MPU Constitution or the adopted MPU 2026 Election Rules & Procedures, the Constitution and adopted Election Rules control.

Issued by: MPU 2026 Electoral Committee Date/Time Published: _____

ADOPTION AND CERTIFICATION

MPU 2026 Election Rules and Procedures - FINAL V20

The undersigned certify that these Election Rules and Procedures were reviewed and adopted by the MPU 2026 Electoral Committee for administration of the November 15, 2026 election, subject at all times to the controlling provisions of the MPU Constitution.
